

## AC CALDO Commitment Agreement

In order to maintain and protect the ongoing interest of all players committing to an AC CALDO Team (U11 – U19), it is important that the team act as a unit. The coach needs to have all players present at all events in order for the team to develop properly and provide the experience the players are expecting. Practices that are operated with 50% of the players just are not effective. Obviously games and tournaments played with insufficient players also make it hard to achieve the desired results. Players who miss CALDO team events must understand that they not only hurt themselves, but also their team mates and the team as a whole.

AC CALDO therefore requests players and parents to acknowledge commitment to the below statements.

1. I will make every effort to make every scheduled practice.
2. I will make every effort to make every scheduled game.
3. I will make every effort to attend each tournament.
4. If I am participating with a town soccer team, I will set my first priority to attending my Caldo teams events.
5. I will make all payments on time as agreed.

AC CALDO is a family oriented soccer club. We do not operate with a win at all cost attitude. We recognize that players have interest in other sports. We make every effort to find the proper balance to allow players to explore other interests. Many players have found it possible to play Caldo and also play an additional sport such as basketball, baseball, swimming, skiing, track, lacrosse, or tennis.

It is the goal of AC CALDO to provide the development of our athletes within the framework of a team. It therefore is impossible to provide the proper experience to all players if there are habitual absentees.

By signing this Commitment Agreement, I hereby agree to the above and will conduct myself with the highest level of honesty, integrity, and respect for myself, my team mates and AC CALDO.
